Plant and Soil **157**: 337–340, 1993.

Contents Volume 157 (1993)

Research articles

In-situ determination of the P-relations around the primary root of maize with respect to inorganic and phytate-P 1
F. Hübel, E. Beck

***Lupinus* species differ in their requirements for iron** 11
C. Tang, A.D. Robson

Factors toxic to beech (*Fagus sylvatica* L.) seedlings in acid soils 19
M. Ljungström, I. Stjernquist

Azospirillum affects Eh and potential denitrification in a soil 31
A. Pidello, L. Menendez, R. Lensi

Responses of a sterile red fungus to soil types, wheat varieties and the presence of certain isolates of *Streptomyces* 35
D.I. Kurtböke, M. Shankar, C.Y. Rowland, K. Sivasithamparam

Effects of a two-year application of ammonium sulphate on growth, nutrient uptake, and rhizosphere microflora of juvenile Douglas-fir 41
A. Gorissen, A.E. Jansen, A.F.M. Olsthoorn

Carbon and nitrogen in the root-zone of barley (*Hordeum vulgare* L.) supplied with nitrogen fertilizer at two rates 51
E. Zagal, S. Bjarnason, U. Olsson

Effects of soil structural discontinuity on root and shoot growth and water use of maize 65
J. Lipiec, T. Ishioka, R. Hatano, T. Sakuma

Excessive aluminium accumulation in the pea mutant E107 (*brz*) 75
F.C. Guinel, T.A. LaRue

The influence of shade and clouds on soil water potential: The buffered behavior of hydraulic lift 83
K. Williams, M.M. Caldwell, J.H. Richards

Mycorrhizal responses of barley cultivars differing in P efficiency 97
J.B. Baon, S.E. Smith, A.M. Alston

Effects of *Mikania micrantha* H.B.K. on germination and growth of weed species 107
B.S. Ismail, L.S. Mah

Evaluation of monoammonium phosphate and bacterial strains to increase tree growth and fruit yield in apple replant problem soil 115
R.S. Utkhede, E.M. Smith

The 2,4-D-induced wheat para-nodules are modified lateral roots with structure enhanced by rhizobial inoculation 121
P.B. Francisco, Jr., S. Akao

Hot water percolation (HWP): A new rapid soil extraction method 131
Gy. Füleky, I. Czinkota

Characterization of native *Frankia* strains isolated from chilean shrubs (Rhamnaceae) 137
M. Carú

Short communications

^{15}N Abundance of forests is correlated with losses of nitrogen 147
P. Högberg, C. Johannisson

Separating live and dead fine roots using colloidal silica: An example from mangrove forests 151
A.I. Robertson, P. Dixon

Research articles

Differences in developmental plasticity and growth rate among drought-resistant and susceptible cultivars of durum wheat (*Triticum turgidum* L. var. *durum*) 155
B. Simane, J.M. Peacock, P.C. Struik

Estimation of potentially mineralisable nitrogen in soil by KCl extraction, I: Comparison with pot experiments 167
K.A. Smith, S. Li

Estimation of potentially mineralisable nitrogen in soil by KCl extraction, II: Comparison with soil N uptake in the field 175
I.P. McTaggart, K.A. Smith

Analytical study of the effects of some soil and plant parameters on root growth due to absorption of one mobile ion: A free-boundary model 185
J.C. Reginato, D.A. Tarzia, M.A. Dzioba

Nitrogen losses in puddled soils as affected by timing of water deficit and nitrogen fertilization 197
R.J. Buresh, E.G. Castillo, S.K. De Datta

The contribution of *Rhizobium meliloti* to soil denitrification 207
J.I. Garcia-Plazaola, J.M. Becerril, C. Arrese-Igor, C. Gonzalez-Murua, P.M. Aparicio-Tejo

Modifications of the carbon and nitrogen allocations in the plant (*Triticum aestivum* L.) soil system in response to increased atmospheric CO_2 concentration 215
G. Billes, H. Rouhier, P. Bottner

Phosphorus sorption characteristics in acid sulfate soils of Thailand: Effect of uncontrolled and controlled soil redox potential (Eh) and pH 227
A. Krairapanond, A. Jugsujinda, W.H. Patrick, Jr.

A comparison of minirhizotron techniques for estimating root length density in soils of different bulk densities 239
K.M. Volkmar

Cd-tolerant arbuscular mycorrhizal (AM) fungi from heavy-metal polluted soils 247
I. Weissenhorn, C. Leyval, J. Berthelin

The fungus-specificity of mycorrhization helper bacteria (MHBs) used as an alternative to soil fumigation for ectomycorrhizal inoculation of bareroot Douglas-fir planting stocks with *Laccaria laccata* 257
R. Duponnois, J. Garbaye, D. Bouchard, J.L. Churin

Calculation of nitrogen mineralization in soil food webs 263
P.C. de Ruiter, J.A. van Veen, J.C. Moore, L. Brussaard, H.W. Hunt

A color composite technique for detecting root dynamics of barley (*Hordeum vulgare* L.) from minirhizotron images 275
D.A. Heeraman, P.H. Crown, N.G. Juma

Early seedling and seasonal N_2-fixing symbiotic activity of two soybean [*Glycine max* (L.) Merr.] cultivars inoculated with *Bradyrhizobium* strains of diverse origin 289
D.H. Lynch, D.L. Smith

Effect of the rootstock on the occurrence of lime-induced chlorosis of potted *Vitis vinifera* L. cv. 'Pinot blanc' 305
L. Bavaresco, P. Fraschini, A. Perino

The maximum axial growth pressure of roots of spring and autumn cultivars of lupin 313
W.R. Whalley, A.R. Dexter

Modelling anion amelioration of aluminium phytotoxicity 319
U.E. Grauer
